

Music Vision

Subject Leader: Liam Avery
Last Update: 15/10/2024

Vision

We aspire to ignite a love of music for every pupil, through exposure to a wide range of music genres and an inspiring specialist music education.

Our vision is for all pupils to leave primary school having had opportunities to perform, compose, listen and share their music with others in a range of genres with different instruments. This creative musical learning will raise self esteem, confidence and in turn, inspire others.

Langney Primary Academy

Music

Subject Specific Intent

Innovation

Music provision at Langney Primary Academy has been a result of curriculum experimentation and continuous reflection leading us to a decision to enrol specialist music teachers to best reach the needs of our children in their music journey. Through constant reflection on the quality of teaching we have been prepared to take risks and think outside of the box as to how our music provision might look. Music at Langney is never dull!

We nurture creativity and innovation through design, and by exploring the designed and made world in which we all live and work.

Being A Centre Of Excellence In All Disciplines

At Langney we have chosen to teach music through a specialist teacher. Advanced teacher subject knowledge promotes depth of coverage and effective progression through the National Curriculum and beyond. This in turn supports our staff and builds on their subject knowledge. This also gives the optimum opportunity for pupils to be engaged and inspired and reach their potential. Music lessons are therefore incredibly important and here we want to provide the best opportunities for our children to listen with attention and learn notation. Our array of instruments in our Music room enables children to be taught in a centre of excellence.

Talent Discovery Of Pupils

At Langney, we're dedicated to talent discovery and nurturing our students' unique potential. Our music lessons have been a revelation, uncovering hidden talents and inspiring a lifelong love of music. Through our enriching extracurricular programs, we're empowering children to discover their passions, build confidence, and unlock limitless opportunities. From shy whispers to soaring rock ballads, we've witnessed incredible transformations. Langney is a place where every child can shine, regardless of their starting point.

Music

Subject Specific Intent

A Balance Between Excellence (Standards) And Enjoyment

Langney has long had a reputation for its excellence in singing. A Funky Friday assembly with a hall full of children singing the rock classics and another weekly assembly on a Thursday devoted to singing is a testament to this. We're committed to providing our students with exciting opportunities to explore their musical potential and develop their skills in a supportive environment. Our music curriculum is designed to ignite a love for music, from rocking out on keyboards to composing their own ukulele tunes. Beyond the immediate fun, our long-term goal is to prepare our students for success in KS3 and beyond, equipping them with a strong foundation in music theory and practical skills. We've built our curriculum around the National Curriculum, but we deliver it in a way that's captivating, engaging, and exciting for everyone involved, from students to parents and teachers. Our passion for teaching through enjoyment is evident in the enthusiasm and excitement that fills our music lessons

Raising Aspirations & Life Chances

Our enrichment and extracurricular programs are designed to inspire and empower our students. Through annual musical showcases like our prestigious bi-yearly Creative Arts Festival, our students have the opportunity to showcase their talents to the local community. Our choirs, including Little Voices and the KS2 Langney choir, participate in the Young Voices annual concert at the O2 and perform regularly in school assemblies. Additionally, our renowned Langney Drummers and Ukulele Orchestra have also made a name for themselves with their local performances. These experiences not only boost our students' confidence but also foster a lifelong love of music, opening up a world of opportunities for their future.

Health & Wellbeing

We provide children with opportunities to make music and express themselves creatively. Through independent performance, but also together in an ensemble where every small part plays an important role in a performance, enables a feeling of joy and achievement that is difficult to pinpoint and cannot easily be replicated in anything other subject.

Becoming immersed in Music is something we encourage as part of our school wide '5 ways to wellbeing.' We believe listening to, composing and playing Music has a profound, positive influence on pupils' mental health.
